

Product Name : Ondansetron
Cat. No. : PC-23333
CAS No. : 99614-02-5
Molecular Formula : C₁₈H₁₉N₃O
Molecular Weight : 293.37
Target : 5-HT Receptor
Solubility : 10 mM in DMSO

Biological Activity

Ondansetron (GR 38032, SN 307) is a potent, highly selective 5-HT₃ receptor antagonist with IC₅₀ of 103 pM. Ondansetron shows negligible agonist or antagonist activity on other 5-HT or non-5-HT receptor-containing tissues. Ondansetron antagonizes the bradycardic response to 5-HT or 2-methyl-5-HT administered intravenously (i.v.) to anaesthetized animals.
