

Product Name : NITD008
Cat. No. : PC-38666
CAS No. : 1044589-82-3
Molecular Formula : C₁₃H₁₄N₄O₄
Molecular Weight : 290.279
Target : Filovirus
Solubility : 10 mM in DMSO

Biological Activity

NITD008 is a selective, adenosine-based flavivirus inhibitor, inhibits dengue virus (DENV, EC₅₀= 0.64 μM), HCV and cellular entry of ZIKV, also has potent antiviral activity against EV71 with EC₅₀ of 0.67 μM in cell culture.

NITD008 also inhibits other flaviviruses, including West Nile virus, yellow fever virus, and Powassan virus.

NITD008 directly inhibits the RNA-dependent RNA polymerase activity of DENV.

NITD008 suppressed peak viremia, reduced cytokine elevation, and completely prevented the infected mice from death in DENV-infected mice.
