

Product Name : GAP-134
Cat. No. : PC-42735
CAS No. : 943134-39-2
Molecular Formula : C₁₄H₁₇N₃O₄
Molecular Weight : 291.3025
Target : Gap Junction Protein
Solubility : 10 mM in DMSO

Biological Activity

GAP-134 (Danegaptide) is a potent, orally active **gap-junction** modifier, prevents significantly conduction velocity slowing at 10 nM compared with vehicle.

GAP-134 (Danegaptide) has highly desirable in vitro and in vivo safety profile including (1) lack of direct effects on membrane ion currents, hERG inhibition, and CYP450 liabilities, (2) negative AMES result, (3) a benign NovaScreen profile, and (4) no effects on systemic hemodynamics.
